

PNI International Attends Successful Launching of Michigan English Test (MET) in the Philippines

Issue No. 3 | February 2024

We are delighted to announce that PNI International Corporation had the opportunity to attend the successful launching of the Michigan English Test (MET) in the Philippines. The event took place on February 19 at the New World Hotel Makati, and was brought to you by Michigan Language Assessment (MLA), Prometric, 9.0 Niner Educational Testing Center, and Ms. Rachelle Olivar of IPASS Processing.

MET is now accepted directly by 25 state boards of nursing for license endorsement, and a total of 47 states for CGFNS VisaScreen. This new program is a significant step forward for Filipino nurses looking to pursue opportunities abroad. Aside from CGFNS, which accepts the Michigan English Test as one of the English exams for VisaScreen, 24 boards of nursing also recognize MET for license endorsement.

PNI International is thrilled about this new launching and is hopeful that the Michigan English Test will help more Filipino nurses achieve their dreams of working abroad. We are committed to supporting Filipino healthcare professionals in their journey to international success.

Congratulations to Michigan Language Assessment and all partners involved in this successful launch! We look forward to the positive impact MET will have on our Filipino nurses' careers.
